

# WHAT IS TOTAL COST TO POLAND INCLUDING ALL FEES?

Our responsibility is to prepare you for obtaining the visa, which costs only 175 EUR. However, you should consider the fact that you will need to have money with you for the preparation of work documentation, approximately 500 PLN, which we will reimburse you after the first month of work, which is around 120 EUR. As for the expenses, you should take into account the following: the cost of visa application at the consulate, insurance, airfare, and approximately 1000 PLN, which is 220 EUR, for meals on-site. If everything goes well, we can provide an advance payment after two weeks of work before the regular salary.

You will receive a work permit from us, along with supporting documents, including a guarantee letter, accommodation letter, service agreement, and more. Prior to obtaining the appointment for submitting documents at the consulate, you will receive instructions on how to prepare for the visa interview.
