

# WHY DO WE HAVE SUCH A LOW COST OF SERVICES?

We understand that our price may cause questions, but we would like to draw your attention to the following aspects.

1. We are an official employment company in Poland, which allows us to have a wide base of clients from all over the world. Secondly, we do not sell individual documents, but are looking for real employees for our team.

2. The price of our consulting services is 175€, which is significantly lower than those who offer vacancies with a work permit for 1000€. This is due to the fact that we go directly, bypassing intermediaries and freelancers, which reduces the costs of our company and, as a result, the cost for the client.

3. Our main goal is to find reliable employees for our clients, and therefore we ask all potential candidates to keep us informed of all visa issues.

After a 3 month period, the work permits of those people who do not provide information about their visa status will be CANCELLED.

We take steps to prevent misuse and use of our firm's name in order to obtain a visa rather than a real job.

4. In addition, I would like to emphasize that we are an honest and legitimate company, and we categorically do not sell documents, as this is an illegal act. Our activity is based on the employment of sincere candidates, and we guarantee a transparent and legal process for all our clients.

We hope this explains why we have more affordable prices, but at the same time you can be sure of our honest and legitimate activities, focused on finding the best candidates for work in Poland.
